Career Objective

Rising senior at California State University, Fullerton studying Computer Science, who is a hard-working individual with proficiency in HTML, CSS, JavaScript, SQL, and C++. Seeking an internship to attain valuable industry experience that will aid me in finding a position in a workplace that will prosper from my knowledge and skills while continuously helping me flourish as an employee and student.

Education

California State University, Fullerton   August 2020 - Present
Bachelor of Science, Computer Science
Current cumulative GPA of 3.23

Saddleback College   August 2016 – May 2020
Completed all lower-division CS classes + general education before transferring

Technical Skills

Languages: HTML, CSS, JavaScript, C++, SQL
Technologies/Operating Systems: mySQL, Windows, Linux
Tools/Others: Visual Studio, Visual Studio Code, Git, GitHub

Projects

Matrix Multiplier: A small web application created with HTML, CSS, JS, and ReactJS that is a fully functional Matrix calculator capable of performing basic matrix operations such as matrix addition, matrix subtraction, scalar multiplication, matrix inversion and matrix multiplication.

MyTicTacToe: A self-assigned C++ console-based game project written in Visual Studio that uses the Windows Console to create a basic graphical interface in which the user can play tic-tac-toe on.

Personal Website: My personal website which was a product of many hours of thoroughly studying and analyzing the ins and outs of HTML5, CSS3, and Responsive Web Design as a whole.
